- About You

The Matthew Reardon
Center for Autism

For the love of children

Before we get started...

- What we **will** and **will not** focus on
- Acronyms & Jargon
- Volume, Pacing, etc.

The Matthew Reardon
Center for Autism

For the love of children

Agenda

- Autism and IEPs
- Reviewing the Document
- Writing Effective IEP Objectives
- Common Mistakes
- Questions

The Matthew Reardon
Center for Autism

For the love of children

IEPs & Autism

The Matthew Reardon
Center for Autism

For the love of children

DSM-5 Criteria

A. Persistent deficits in social communication and social interaction across multiple contexts...

1. Social-emotional reciprocity

2. Nonverbal communication

3. Developing, maintaining, and understanding relationships

The Matthew Reardon
Center for Autism

For the love of children

DSM-5 Criteria

B. Restricted, repetitive patterns of behavior, interests, or activities...

1. Repetitive movements/speech
2. Rituals & Sameness
3. Restricted interests
4. Reactivity to sensory input

The Matthew Reardon
Center for Autism

For the love of children

DSM-5 Criteria

C. Symptoms present early

D. Clinically significant impairment

E. Rule out ID and GDD

The Matthew Reardon
Center for Autism

For the love of children

Autism and IEPs

Autism is **NOT** an academic disability

- Social Communication
- Social Interaction
- Behavior

The Matthew Reardon
Center for Autism

For the love of children

Autism and IEPs

Focus should be on addressing these needs

- Many academic deficits are a byproduct of these areas of need

“River of Curriculum”

The Matthew Reardon

The IEP Document

The Matthew Reardon
Center for Autism

For the love of children

Purpose

“...to ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for further education, employment and independent living.”

The Matthew Reardon
Center for Autism

For the love of children

Purpose

“...to ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and **prepare them for further education, employment and independent living.**”

The Matthew Reardon
Center for Autism

For the love of children

The IEP Meeting

- Many schools develop IEPs beforehand
 - Present & mark as **DRAFT**
- IEP meeting is to develop the IEP
- Bring ideas for potential goals
- Ask questions

The Matthew Reardon
Center for Autism

For the love of children

The IEP Meeting

The Matthew Reardon

The IEP Meeting

The Matthew Reardon
Center for Autism

For the love of children

Student Info/Sign-in

- Student/family contact info (confirm at meeting)
- Members of IEP TEAM:
 - Parents
 - STUDENT
 - SPED Teacher
 - Gen. Ed. Teacher
 - School Administrator
 - OT, PT, SLP
 - Other professionals/agencies

The Matthew Reardon
Center for Autism

For the love of children

Present Levels...

Document baseline levels used in developing IEP

- Most recent evaluation
- State/District Assessments
- Strengths/Needs
- Parent Concerns
- Impact of Disability

The Matthew Reardon
Center for Autism

For the love of children

Recent Testing

- Results of most recent re-evaluation
- Placement Testing
- Standardized Testing
- Examples of test options

The Matthew Reardon
Center for Autism

For the love of children

Strengths and Needs

- Academic, Developmental, Functional
- Common to only focus on needs
- Common to only focus on academics
- Needs \longrightarrow IEP objectives

The Matthew Reardon
Center for Autism

For the love of children

Parent Concerns

- Usually blank prior to meeting
- Discuss concerns prior to meeting
- Concerns should be addressed through goals

The Matthew Reardon
Center for Autism

For the love of children

Vision Statement

TEAM's vision for next 1-5 years

- Move to LRE?
- Adult living?
- Employment
- Community Participation

The Matthew Reardon
Center for Autism

For the love of children

Impact of the Disability

- How does ASD affect progress with general curriculum
 - Communication
 - Social Skills
 - Behavior

The Matthew Reardon
Center for Autism

For the love of children

Special Factors

- Behavior (BIP)
- Limited English Proficiency
- Visual/Hearing Impairment
- Assistive Technology
- Alternative format

The Matthew Reardon
Center for Autism

For the love of children

Transition Plan

- Start Early!
 - Required by age 16 or 9th grade
- Develop long-term vision **with** student
- Involve any necessary individuals/agencies
- Update annually

The Matthew Reardon
Center for Autism

For the love of children

Transition Plan

- Develop Measurable Post-secondary Goals
 - Education & Training
 - Employment & Employability
 - Independent Living
 - Community Participation

The Matthew Reardon
Center for Autism

For the love of children

Goals and Objectives/Benchmarks

“What the Child Needs to Learn”

- Measurable
- Challenging yet attainable (one year)
- Address needs and concerns
- How will progress be reported?

The Matthew Reardon
Center for Autism

For the love of children

Accommodations

“How the Child Learns Best”

- Instructional
 - Visuals, classroom seating
- Testing
 - Extended time, Response Method, etc.
- Supplemental Aids/Services

The Matthew Reardon
Center for Autism

For the love of children

Accommodations

“How the Child Learns Best”

- Supports for School Personnel
 - Specialized training, Workshops, etc.
- Standardized Tests
 - Alternate/Modified Assessment?
 - Accommodations?

The Matthew Reardon
Center for Autism

For the love of children

Placement Options

“Special Education is a service, not a place”

- Where can Goals/Objectives and Accommodations be implemented?
- FAPE
- LRE

The Matthew Reardon
Center for Autism

For the love of children

Related Services

- Speech, OT, PT, Transportation
- Who will provide service?
- Where?
- How often?
- When will services start/end?

The Matthew Reardon
Center for Autism

For the love of children

Additional Sections

- Extended School Year
- Transportation
- Additional Info
- Notification of Meeting
- Parent Participation

The Matthew Reardon
Center for Autism

Writing IEP Objectives

The Matthew Reardon
Center for Autism

For the love of children

IEP Objectives should include:

Context

- When/Where will child demonstrate the skill, with who, etc.
- Examples:
 - Across 2 people and 2 settings...
 - During Community Outings...
 - When given a directive...

The Matthew Reardon
Center for Autism

For the love of children

IEP Objectives should include:

Skill: What will the child do?

- Should be observable and measureable
- Use clear, concise language
- Examples:
 - ...will expressively identify his street address...
 - ...will independently prepare a meal item...
 - ...will remain seated during classroom instruction...

The Matthew Reardon
Center for Autism

For the love of children

IEP Objectives should include:

Performance Criteria

- What level of independence, accuracy, consistency, etc. is required for mastery?
- Examples:
 - ...90% accuracy across 3 consecutive sessions.
 - ...with one or fewer prompts.
 - ...80% accuracy for 20 lessons.

The Matthew Reardon
Center for Autism

For the love of children

IEP Objectives should include:

of Skills/Items for mastery (if applicable)

- How many successful attempts/completion levels needed?
- Examples:
 - ...for 20 lessons.
 - ...for 50 sight words
 - ...for 4 new leisure activities

The Matthew Reardon
Center for Autism

For the love of children

“Stranger Test”

- Can someone unfamiliar with the student could read the objective and understand it?
- Example: “...will decrease anger...”
- Instead you could say “...will speak to classroom staff without swearing...”

“Dead Man’s Test”

- Can a dead man do it?
- Example: “...will sit in class without yelling...”
- Instead you could say “...*will complete work without yelling...*”

The Matthew Reardon
Center for Autism

For the love of children

Putting it all together

Do the following examples pass the test?

- Context, Skill, Criteria, Quantity
- Stranger Test
- Dead Man's Test

The Matthew Reardon
Center for Autism

For the love of children

Putting it all together

When shown an analog clock set to the half-hour, Tom will state the time with 80% accuracy over 5 consecutive sessions.

- Context
- Skill
- Criteria
- Quantity (if applicable)

Center for Autism

For the love of children

Putting it all together

- By 2/27/2020, after watching a teacher model of how to respect others' personal space (e.g. not moving one's desk to be closer to a peer without their permission, touching or moving too close to peers while on the rug), during an independent work activity, when sitting amongst peers... (e.g. on floor, at desk), (name) will remain in seat and refrain from inappropriate contact or movement into the personal space of those nearby (e.g. hanging on others, leaning too close, unwanted touching) for at least 10 minutes in 4/5 independent work activities

The Matthew Reardon

Common Mistakes

The Matthew Reardon
Center for Autism

For the love of children

“Cut and Paste” IEPs

- It’s common to target the same skill for different students...
 - Change name
 - Change gender
- Don’t use same IEP document for different students
 - Target different objectives during the same lesson

Goals and Objectives

- Too many
- Can't realistically be implemented
 - Materials
 - Facilities
 - Opportunities

The Matthew Reardon
Center for Autism

For the love of children

Goals and Objectives

- Setting bar too high
 - Target pre-requisite skills first
- Easily attainable
 - Low criteria
 - Areas of strength

The Matthew Reardon
Center for Autism

For the love of children

Goals and Objectives

- Criteria aren't appropriate
 - 80% seems to be the default
 - Street Crossing?
 - Toileting?
 - Criteria = Chance
 - 50% for yes/no

The Matthew Reardon
Center for Autism

For the love of children

Goals and Objectives

- Objective relies on behavior of others
- Would require amendment to modify
 - Specify certain targets/curriculum

The Matthew Reardon
Center for Autism
